Permit to Practice Application

Any company that engages in the practice of engineering or geoscience in the Northwest Territories or Nunavut (NT/NU) as part of its business must have a Permit to Practice with NAPEG. If a parent company or joint-venture group has a Permit to Practice, any subsidiary of that company that performs engineering or geoscience must also have a Permit to Practice if the subsidiary is a separate entity with a name that is clearly different from the parent company or joint-venture group.

A Member practicing as a sole proprietor who is unincorporated does not need a Permit to Practice because the Member's NAPEG license grants a sole proprietor the right to independently practice engineering or geoscience. An unincorporated sole proprietor is a business for which there is no legal distinction between the individual and the business.

This application form must be completed and signed, including a signed Chief Operating Officer or Authorized Designate (COO) declaration, and signed declarations by all Responsible Members. Along with the application, you must submit a copy of your Certificate of Incorporation or Certificate of Amendment.
