# Policy Statement

## Non-Practicing Member/Licensee

### **Section 25.a of NAPEG Bylaws:**

Council may establish a non-practicing membership category for members and licensees who have ceased to practice professional engineering or professional geoscience in the Northwest Territories but who wish to remain affiliated with the Association. The annual fee for non-practicing members/licensees shall be determined by Council from time to time. Non-practicing registrants shall show (Non-Practicing) after their designation to provide clarity for public interest.

### **Section 22 (1) of the *Engineering and Geoscience Professions Act*:**

Council may require a member or licensee who, for a period exceeding five years, has been inactive in the field of practice in which the member or licensee obtained his or her qualifications for registration within his or her designated profession, to have his or her present qualifications reviewed by the Board of Examiners.

### **Policy:**

A member or licensee may request, in writing, a change in status from *Active* to *Non-Practicing* to the Registrar. The request will be reviewed by the Membership and Enforcement Committee and their recommendation will be submitted to Council for final decision on approval.

A member or licensee is not allowed to practice their profession in the Northwest Territories and/or Nunavut when their status is non-practicing. To resume practice, the non-practicing member/licensee must submit a request, in writing, to the Registrar to change from non-practicing to active status. The request will be reviewed by the Membership and Enforcement Committee and their recommendation will be submitted to Council for final decision on approval. The Reinstatement Policy will apply to all applicants.

A member or licensee, who has non-practicing status with NAPEG, will submit the following declaration annually.

## NON-PRACTICING DECLARATION

I declare that I am not engaged in the practice of professional engineering or professional geoscience in the Northwest Territories and/or Nunavut.

I agree not to engage in the practice of professional engineering or professional geoscience in the Northwest Territories and/or Nunavut until I have requested and been granted a change to active status.

Please check one of the following options:

- I am actively practicing professional engineering or professional geoscience in another jurisdiction as below:

Name the Jurisdiction/s	
----------------------------	--

- I am not practicing professional engineering or professional geoscience in any other jurisdictions.
