

## Seeking Applications - NAPEG Graduate Scholarships

The Northwest Territories and Nunavut Association of Professional Engineers and Geoscientists (NAPEG) Education Foundation may award up to two scholarships per year in the amount of seventy-five hundred dollars (\$7,500.00) each, to provide financial assistance to Northwest Territories or Nunavut resident member engineers and geoscientists who are furthering their studies in engineering or geoscience.

### Objectives

NAPEG encourages the achievement of excellence in the engineering and geosciences professions through the promotion of advanced studies and research programs by providing financial assistance to engineers and geoscientists returning to university for further study in a Masters or PhD program.

The objectives of the scholarships are to:

- 1) promote the professions of Engineering and Geoscience to the Northwest Territories and Nunavut residents as established and respected careers;
- 2) recognize and financially assist NAPEG members enrolled in a recognized program leading to

a post-graduate university degree in engineering or geoscience; and

- 3) increase public awareness of NAPEG as an organization actively concerned about encouraging all people in the engineering and geoscience professions, present and future community leadership through its membership, and the continued growth of the professions in the Northwest Territories and Nunavut.

### Eligibility

Applicants must be a NAPEG professional member or a member-in-training, and registered as a full-time student for the following academic year.

### Selection criteria

Selection of the scholarship recipients will be based only on information provided with the application.

No restrictions are placed on scholarship recipients holding other grants or awards or receiving assistance or income from other sources.

NOTE: NAPEG is also seeking applications for the Mel Brown Memorial and Bob Spence Memorial Undergraduate scholarships. Details on applying for scholarships can be found on the NAPEG Website.

## Annual Renewal and Annual Dues Payment

Please note that annual renewal means more than just paying dues for the current year. Both firms and individuals are required to go to their online account. There are a number of questions, declarations and confirmations that need to be answered before you can create an invoice and pay your annual dues. You do not receive an invoice in the mail. The invoice is created through your account.

As well, you must go online to resign if you no longer need a licence to practice engineering or geoscience in the Northwest Territories and Nunavut. NAPEG staff will also accept an email resignation.

Each year NAPEG Staff has spent many hours, days, months trying to reach registrants when they have not renewed. For 2020 we will have a new process that will depend on registrants taking initiative to ensure the renewal is complete and dues are paid.

Annual dues are due by January 1 each year. The online renewal opens on November 1. The current Act allows for 90 days of grace, which has been interpreted to mean dues must be paid by March 31 to avoid being struck from the register. Therefore, a list of those who have not renewed is provided to the Membership and Enforcement Committee. When ready, the list is forwarded to Council with the recommendation to strike from the register.

This year, the list was approved in May and letters were sent out by the Registrar in June. It is stressed that those practicing engineering and/or geoscience in the Northwest Territories and Nunavut must have a licence to practice. The reinstatement policy is available on the NAPEG Website [www.napeg.nt.ca](http://www.napeg.nt.ca).
